

#### **BIKE CROSS-COUNTRY SKI SNOWMOBILE**

Located north of Montréal, the Laurentian region is an internationally acclaimed destination offering visitors a broad range of activities. Set in a superb landscape of mountains, valleys, lakes and waterways, with lively villages that love to celebrate the coming of all four seasons!

Le P'tit Train du Nord linear park is a 234-km trail following the old railway line between Bois-des-Filion and Mont-Laurier, and the longest park of its kind in Canada.

Experience the trail by bike, in-line skates, cross-country skis, fatbike or snowmobile.

On your way, visit any number of attractions, both recreational and cultural, share the joie de vivre of our country inns and enjoy tasty local specialties.

For the last stop, find out about the culture and history of Sainte-Adèle, cradle of Les Paysd'en-Haut. Visit the Website for more information.

#### A BIT OF HISTORY **LE P'TIT TRAIN DU NORD:** FROM A RAILWAY TO A LINEAR PARK

development. Le P'tit Train du Nord also fostered the growth of the Laurentian tourism industry. As soon as the first trains reached the stations each season, the mountain villages burst into life. The unprecedented success of Le P'tit Train du Nord reached a peak between 1920 and 1940 when its owners, Canadian

Pacific, innovated with snow trains. Jolly passengers, boarding at Montréal, left every weekend and headed to the Laurentians to have fun and enjoy nature and skiing, the "in" sport of the times. Le P'tit Train du Nord made its last passenger journey on November 15, 1981. In 1996, Le P'tit Train du Nord linear park,

built over the old railway line, was inaugurated. Train stations along the park have since been renovated and converted into service centers. These days, the linear park operates a fully-fledged tourist industry of its own, catering to cyclists, ski skaters, cross-country skiers and snowmobilers and numerous events are held.
